

Forms Assignment

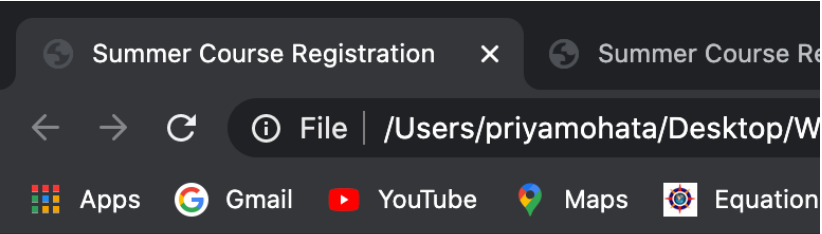

Write a HTML page with a summer course registration form containing the following:

1. Student Name
2. SRN
3. Dropdown list to select department of student
4. Checkboxes with course list (atleast 8 courses – 2 in a line)
5. Radio button (Online or Offline mode)
6. Textarea for Expectations from the courses
7. Submit and reset buttons

The form should send the details to “register.php” as a “post” http request and display the response from register.php on a new tab.

```
<html>
  <head>
    <title>Summer Course Registration</title>
  </head>
  <body>
    <form method="post" action="register.php" target="_blank">
      <label for="sname">Student Name</label>
      <input type="text" id="sname" name="studname" />
      <br><br>
      <label for="srn">SRN</label>
      <input type="text" id="srn" name="srn" />
      <br><br>
      <label for="dept">Department</label>
      <select name="dept" id="dept">
        <option value="CS">Computer Science</option>
        <option value="ECE">Electronics</option>
        <option value="MECH">Mechanical</option>
      </select>
      <br><br>
      <label for="course">Course List</label>
      <input type="checkbox" name="course" value="DDC0">Digital
Design</input>
      <input type="checkbox" name="course" value="DSA">Data
Structures</input>
      <br><br>
      <input type="checkbox" name="course" value="SDS">Data
Science</input>
      <input type="checkbox" name="course" value="WEB">Web
Tech</input>
      <br><br>
      <label for="mode">Mode of Study</label>
```

```
        <input type="radio" id="mode" name="mode"
value="Offline">Offline
        <input type="radio" id="mode" name="mode"
value="Online">Online
        <br><br>
        <label for="expectations">Expectations</label>
        <textarea rows="5" cols="10" id="expectations"
name="expectations"></textarea>
        <br><br>
        <input type="submit">
        <input type="reset">
    </form>
</body>
</html>
```

Student Name
